

## Welcome to i-SAFE!

PAIUnet, your statewide, high-speed educational network, has partnered with i-SAFE, a nonprofit organization whose mission is to educate and empower students, teachers and parents to safely, responsibly and productively use Information and Communications Technology (ICT).

This three-year partnership enables educators throughout Pennsylvania to gain access to world-class e-Safety lesson plans, unique videos and valuable resources to utilize in their classrooms.

Beginning July 1, 2011, your **FREE**, one-year annual subscription includes:

- 265 curriculum lesson plans and videos; NETS based and age appropriate for K-12, subjects include cyber bullying, social networking, chat room etiquette, personal safety, sexting, online predators, and much more.
- A boost to your student community service programs with the i-MENTOR Training Network video modules that provide guidance for older students to mentor others and conduct community events.
- Over five hours of video-based professional development programing for all staff, provided online and individually on demand through i-LEARN Online.
- The i-PARENT modules that educate parents about e-Safety topics and encourages community outreach.
- i-SAFE's massive infrastructure that monitors and records implementation, to report E-Rate compliance.

Registration Instructions will provide you two ways to gain access to all of these programs.

Years two and three of this partnership (July 1, 2012, through June 30, 2014), your *annual* subscription will be based on \$0.20 per student (ADA).

You may find additional information by visiting [www.paiunet.org](http://www.paiunet.org) or by contacting your local Intermediate Unit.
